SOLAR LANTERN SET WITH DECORATIVE BASKET

Dear customer,

Congratulations on your purchase of a PARADISE® lighting product. Our products will help to enhance the beauty of your home and provide many years of enjoyment. PARADISE® offers a wide selection of lighting products of the highest professional quality. Ask your dealer about the many other PARADISE® products that will help to create your own paradise.

To ensure the maximum performance of your garden light, please read and save these instructions.

Replacement parts may be ordered by using the fixture model number and the part's name.

1. How your Solar Powered Fixture works

During the day, the solar panel converts sunlight into electricity and recharges the battery / batteries. At night, the light turns on automatically using the electricity stored during that day.

The number of hours the light stays on depends on your geographical location, weather conditions and seasonal sunlight availability.

Place the solar light fixture in an area where it can receive direct sunlight for at least 8 hours each day. Shadowed locations will not allow the battery / batteries to charge fully and will reduce the hours of nighttime lighting. The selected location should not be near nighttime light sources, such as porch lights, street lights or pool lights, as these may cause the solar light to turn off prematurely. If the solar panel is covered by a protective film, remove it before using the product.

2. First time use

Push the ON/OFF button to the ON position . Place the solar light in a location where it can receive a full 8 hours of sunlight to allow the rechargeable battery to reach maximum capacity.

3. Fixture Assembly

Product does not require assembly.

4. Troubleshooting

If the light does not turn on at dusk after 8 hours of charging:

- Ensure that the solar lantern is in a bright sunny location and not in a shady area during the day.
- Make sure that the light's photocell is not affected by other light sources at night.
- Make sure that the ON/OFF button is in the ON position.
- Verify that the battery/batteries are making contact with the terminal and that they have been inserted in the correct polarity.

5. Battery Replacement

NOTE: This operation should be done in the morning on a sunny day. This will allow the lantern to receive a full 8 hours of sunlight so that the rechargeable battery/batteries can reach maximum capacity.

- Remove the 4 screws under the lantern.
 - Lift off the solar panel.
 - Remove rubber gasket.
 - Remove the old battery and replace it with a new AAA size rechargeable battery of same or greater mAh.
- (USE RECHARGEABLE BATTERIES ONLY).

Note: Clean the battery contacts and those of the device prior to battery installation.

- Be sure to insert the battery in the proper direction.
- Replace the rubber gasket and battery cover.

6. CAUTION

- Safe for outdoor operation.
- Failure to insert battery/batteries in the correct polarity, as indicated in the battery compartment, may shorten the life of the battery/batteries or cause battery/batteries to explode or leak.
- Do not mix old and new batteries. Replace all batteries of a set at the same time.
- Do not mix Alkaline, Standard (Carbon-Zinc) or Rechargeable (Nickel Cadmium) or (Nickel Metal Hydride) batteries.
- Do not dispose of batteries in fire.
- Batteries should be recycled or disposed of as per manufacturer's recommendations.
- Remove battery/batteries if consumed or if product is to be left unused for a long period.
- **REPLACEMENT PARTS MAY BE ORDERED BY USING THE FIXTURE MODEL NUMBER AND THE PART'S NAME.**

ONE (1) YEAR LIMITED WARRANTY

This product is guaranteed to be free from defects in material and workmanship for one (1) year following the date of purchase (excluding the battery/batteries). Should a defect occur within the warranty period, please contact our customer service line at 1-888-867-6095 or at the following email address: customerservice@niinorthern.com. A proof of purchase (sales receipt) will be required. If we cannot replace the defective part you require, you can return your product to the original point of purchase for a full refund or a replacement product. The consumer is responsible for the removal of and reinstallation of the product. Damage to any parts as such by accident, misuse, or improper installation is NOT covered by this warranty. Our policy does not include liability for incidental or consequential damages. Some states or provinces do not allow the exclusion or limitation of consequential damages; therefore, the above exclusion may not apply to you. This warranty gives you specific legal rights and you may also have other rights that vary from place to place.
